- custom punches available on request

Round punches for bolt Ø 3/8”:

From 12.7 mm / 0.5” to 38.1 mm / 1.5”

→ for more detailed information, please refer to the häwa Tools Catalog, page 17

Round punches for bolt Ø 3/4”:

From 28.3 mm / 1.11” to 120 mm / 4.72”

→ for more detailed information, please refer to the häwa Tools Catalog, page 19

Square & rectangular punches:

From 15.8 mm / 0.62” to 112 mm / 4.41”

→ for more detailed information, please refer to the häwa Tools Catalog, page 22-26

→ Punches for heavy duty plug connectors available!

Bolts with ball bearing:

All häwa round punches can also be used with manual wrenches instead of hydraulic pumps. For this a punch/die combination plus a bolt with or without ball bearing is required.

→ for more detailed information, please refer to the häwa Tools Catalog, page 17/18
